Michigan Saves™

Michigan Saves -This finance program encourages using high efficiency products, and are being offered from local credit unions that you may be familiar with.

Lake Michigan Credit Union, Genisys Credit Union are two of the lenders. Their rates are good - around 5%, and terms are 12-36 months for residential customers. The process to apply is easy, and the preapplication process is quick.

OUR MISSION

We serve you as we would serve our neighbors. We believe in putting others before ourselves, and treating our customers with the kindness and respect they deserve.

OUR TEAM

We enjoy working together as a team. We make sure that Reliable Heating and Cooling is an open, honest, and detail-oriented crew that anticipates the needs of you, our customer.

From Lisa at the front desk, to our service technicians in the field and installers at the job, our team works with you to make informed decisions that meet your needs and the needs of your household. We keep you informed about our process, your options, the job timeline, and all the different ways to pay. We also educate you about possible steps for the future.

We strive for excellence in our service. We make sure our employees are trained, EPA certified, proficient with new equipment, and knowledgeable about older units, too. We continually pursue additional training to stay atuned to ever-changing industry standards.
